

NEU x HUST | Online Chinese Short Course 2019

Program information

I . Program Object:

Under the collaboration between Northeastern University and Hanoi University of Science and Technology, the online Chinese courses is brought up for HUST current students and alumni. Students who have successfully finished the learning tasks of the project will get the official study certificate from NEU as offline programs.

II . Teaching Method

All courses of this project are taught online, and the teaching method of live broadcast + recorded broadcast is adopted. The courses are divided into two categories: language learning and cultural practice.

III. Training Goals

- ✓ **1.** To enable students to master the basic theories and basic knowledge of Chinese in a short period of time;
- ✓ **2.** Cultivate students' Chinese language and communication skills;
- ✓ **3.** To expose students to Chinese culture and understand the conditions of contemporary China.

IV. Programs Description

* This semester programs will be organized into several classes with different language levels which are suitable for registered students, who are accepted to grant the full-scholarship.

* You can find the HSK test sample and answers for different levels and take the practice test by yourself to find your general Chinese level for free.

< Chinese language learning >

This course allows students to master the pronunciation, vocabulary, grammatical rules, and the sequence and hierarchy of expressions of Chinese through oral teaching, and train students to use Chinese in oral communication. The textbook sentences are real and natural, the conversation is short and practical, the language points are learned and practiced, the exercises are novel and interesting, and the media technology is integrated, which surely bring in perfect environments for students to develop Chinese skills and to be able to participate in Semester courses.

< Chinese Cultural practice >

About China

One of the characteristic courses of Chinese university MOOC recorded by the teaching team of Northeastern University. Combining pictures, videos, cultural short stories and other forms, all aspects of Chinese culture are presented to the students in a simple and clear, relaxing and happy manner. The teaching content is close to the thinking, study and living habits of international students, covering more than 200 knowledge points such as Northeast culture, Chinese geography and history, literature and art, science and technology education, medicine and sports. From all aspects of food, clothing, housing, transportation, etc.,

Chinese tea art

The professional tearoom at the Northeastern University cooperation base brings you immersive tea ceremony courses. Combining learning, appreciating, and practice, so that everyone can experience the essence of Chinese tea ceremony immersively.

Appreciation of Chinese Movies

Appreciation of Chinese Film and Television is one of the characteristic courses of Chinese teaching in our school. Students appreciate the film clips carefully selected by the teacher, feel the daily real

conversations in Chinese films, and, under the guidance of the teacher, learn to understand the language and cultural phenomena in the film.

Chinese classical musical instrument

Invite well-known teachers and performers of Shenyang Conservatory of Music to give professional explanations of Chinese classical music knowledge and instrument performance. The previous courses are very popular among students. Please stay for this concert that does not require tickets~

In the teaching arrangement, language learning courses are the main in the morning, so that students can master the basic knowledge of Chinese systematically and have basic Chinese communication skills; in the afternoon, the cultural observation courses are mainly used, and the practical teaching results are reported in the form of online observation and student learning effect display.
