Social problem to solve	Describe the specific social problem that you want to solve through your R&D and its social implementation.				

Science, Technology and Innovation (STI): Phase of Research and Development (R&D)	
R&D Details	
R&D Theme	Write only the title.
Summary of R&D (objective, content, social needs)	Describe the objectives, content and social needs of your R&D.

Summary of R&D (Method, schedule, outcome)	Describe the method, schedule and outcome of your R&D.				
R&D duration	( ) years ( ) months	Start date	YYYY / MM	End date, if any	YYYY / MM or not planed
Achievements in R&D					
Type of achievement	E.g. Publication of a research paper, etc.			Date of achievement	YYYY / MM
Details of achievement	Describe the details of your achievement in R&D.				
Contribution to SDGs	Describe how your achievement in R&D can contribute to solving the social problem you described above and by extension contribute to meeting SDGs.				
Inclusiveness	Describe how your achievement in R&D can serve the SDG-related concept of "leaving no one behind."				
Innovativeness in R&D					
Features; originality; and scientific and technological significance	Describe why your R&D is innovative. Explain the situation and condition in your country and the world with regards to the field of your R&D, and identify the features, originality, and scientific and technological significance of your R&D.				

Science, Technology and Innovation (STI): Phase of Social Implementation	
Social Implementation Plan of R&D	
Specific ideas	Describe how your achievement in R&D can be implemented in society, especially in your country or the ASEAN region. What should be done, and by who? Those involved in implementation can include not only researchers, but governments, companies, communities, and individuals as well. How will you collaborate with them? Your ideas may be under development, but please try to describe them specifically.
Concrete action plan	If you have a concrete action plan that includes schedules, locations, collaborators, etc., please describe it here. Action plans can include not only the commercialization of products as the result of R&D, but also such activities as the promotion of social consciousness; human resource development in S&T; knowledge transfer and skill training; provision of scientific evidence and action proposal to policy makers; transformation of social, economic and institutional systems; and more. Please describe any difficulties that your plan may face, such as institutional systems, if applicable.
Innovativeness of Social Implementation Plan	
Social significance	Describe why your social implementation plan is innovative. Explain the current situation of social, economic and institutional systems; workstyle and lifestyle; social consciousness; and commonly used technology in your country or the ASEAN region, and describe how your plan can transform this situation and make a positive impact on society. If your plan is still under development, describe your ideas and explain what kind of social innovation is necessary.
